- March 17, 2018 - Chapter 002 Special Meeting
- March 23, 2018- Membership Service Committee meeting

As a new member on council I find these meetings a great opportunity to speak to the new members. I continue to learn from the more experienced members so I can become a more productive and active council representative and union activist. I continue to share the work AUPE does and continues to do for the members.

My workplace welcomes any information that is shared and members are appreciative. Especially information regarding our Local 002 site, AUPE site, EAC site, AUPE benefits, EAC events, the WAPD bursary and AUPE Contract bargaining- through newsletter. I continue to encourage other staff members to take the “Intro to Union” course and attend the general meeting to come out and see what the AUPE is doing for them.

MISC

- This year has been a huge learning curve where I have been elected as a council rep as well was elected for the Membership Service Committee along with 5 other council members.
- During this upcoming year I look forward to gaining more knowledge, experience and opening myself up to more challenges and training that is available to me.

I appreciate the opportunity to be a member of the Local 002 Chapter 002 as a council Rep and as a member of the Membership Service Committee.

Yours In Solidarity
Kenneth Lynch
